Mobile Vet Surgeon ACT No.47

The basis of the practice I conduct is that of a part time mobile private practitioner. I wish to give your pet and yourself a personal service. I have been practicing in Canberra for more than 35 years.

I have no base but in accordance with ACT Veterinary Surgeon Board regulations, the practice is linked to:

*Kippax Veterinary Hospital, 82 Hardwick Crescent, Holt.
Ph. 62551242.*

I used to own this practice. There is no compunction to use this hospital, however, but it could be in your pet's best interests to have a full service veterinary hospital sharing my records.

Alternatively, you may take my records to any practice in Australia for follow up. The reasoning behind this is that, despite the fact I will do my best to look after you and your pet, I cannot conduct a 24-hour practice and there are many times when I shall be away.

After Hours work is via:

*Animal Emergency Centre, Unit 15/2 Yallourn St, Fyshwick.
Ph. 62806344.*

Scripts can be filled at Kippax Veterinary Hospital or at a pharmacy (I have a link with Hawker Pharmacy) but only by arrangement at another veterinary practice - a little complication of veterinary prescribing.

I can usually be contacted by email or on 0408631558.
